

2012 Subcontractor Performance Award

Thank you!

Your outstanding performance on subcontract orders with JN Bentley during 2012 has ranked you amongst our top 25% of suppliers for the year.

Our supply chain is critical to our success as a company and therefore it is important to recognise such high levels of performance.

Measurement is undertaken by our project teams for every order placed and covers the following areas:

- Quality of product and workmanship.
- Communication and level of service provided.
- Timeliness of delivery and adherence to programme.
- Attention to health and safety issues.
- Attention to environmental issues.
- Innovation and design ideas.
- Submission of method statements, risk assessments and CoSHH information.
- Submission of test certificates, operation and maintenance information and as built drawings.
- Invoicing and application for payment (timeliness and accuracy).
- Changes to order and variations from initial scope.
