

# 2009

## Subcontractor Performance Award

### Thank you!

Your outstanding performance on subcontract orders with JN Bentley during 2009 has ranked you amongst our top 25 suppliers for the year. We believe that our supply chain is critical to our success as a company and therefore it is important to recognise high levels of performance.

Measurement is undertaken by our project teams for every order placed and covers the following areas:

- Quality of product and workmanship
- Communication and level of service provided
- Timeliness of delivery and adherence to programme
- Attention to Health & Safety issues
- Attention to environmental issues
- Innovation and design ideas
- Submission of method statements, risk assessments & CoSHH information
- Submission of test certificates, operation & maintenance information and as built drawings
- Invoicing and application for payment (timeliness and accuracy)
- Changes to order and variations from initial scope
